Subject: UIC Permit Backlog Reasons- Region 8

Good Morning,

We've been asked to do an analysis where we categorize the reasons for the backlogged permit applications. The categories below are what I came up with based on what I've been hearing from folks on the calls. The Region 8 backlogged UIC permit applications are in the table below. Can you tell me if any (or multiple) of the below reasons apply by entering an "X" in the applicable square and sending back to me? For things like the BIA issue, I would just put that as 'Policy delays'. I'm looking for a response by COB Monday if that is possible.

Region	Facility Name	Permit Type	Incomplete application (template letters)	Add'l technical info needed (template letters)	Applicant is unresponsive	Complex project	Permit writer workload	Large volume of public comments	Applicant slow to provide financial assurance
8	Town of Firestone	Class I UIC Well Permit							
8	Old 7 Inch SWD/SHD	Class II UIC Well Permit							
8	Riverton East 36-3	Class II UIC Well Permit							
8	Dewey Burdock ISR/Powertech	Class III UIC Well Permit							
8	Dewey Burdock Disposal/Powertech	Class V UIC Well Permit							
8	ECCV ASR	Class V UIC Well Permit							
8	Winona Inn	Class V UIC Well Permit							
8	Kinder Morgan	Renewal UIC Class I							

Delays related to virtual hearings	Tribal consultation delays	NHPA/ESA delays	Policy delays	Other (please describe)

Thanks,
Colin Dyroff
